

## Twin-motor industrial wet & dry vacuum cleaners for the toughest applications

Tough and reliable the ATTIX 9 is ideal for difficult cleaning tasks as well as daily maintenance cleaning. Its superb performance and quality construction make the ATTIX 9 a great choice for warehouses, factories and industry.

The ATTIX 9 is the essential vacuum that will go on cleaning powerfully and quickly, day-in and day-out. The Large stainless steel tank improves productivity and ensures operation in the toughest cleaning environment. Emptying is kept to a minimum and provides excellent protection from knocks and bumps to ensure a longer working life for the unit. The low working noise level makes this machine the quietest in its class for a comfortable working environment. The twin turbine motor produces enough air flow and suction power to give you a better result in less time. There is no need to remove the motor head for emptying the tank. A lever simply lowers and detaches the tank, so it can be rolled away for emptying.

- Twin-motor industrial performance
- Washable PET Fleece, big surface filter for high efficiency and low maintenance costs
- Push & Clean filter cleaning system for high efficiency
- Stainless steel tiltable and removable 70 litre container for perfect handling and disposal
- 10 metre cable for a large working radius
- Applicable for wet & dry pick up by reliable floating system
- Robust fleece filter bag standard
