

Why Buy HENRY ALLERGY?

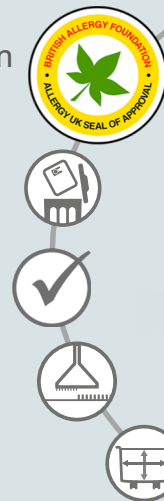

British Allergy Foundation
Seal of Approval

Emptying with No Dust,
No Mess, No Allergens

HepaFlo Filtration

Perfect for Carpets
and Hard-floors

Huge Capacity

Stop Allergens in their Tracks

Up to 1 in 3 of us suffer from dust-related allergies, but Henry Allergy is here to help! His HEPA filter easily traps household allergens, such as pollen, pet dander and dust mites, which are left behind by most household vacuums.

Relief from Pet Allergies

Henry Allergy is scientifically proven to reduce pet-related allergens around the home.

HepaFlo Filtration

3-Stage filtration system stops allergens escaping. Tested in an independent laboratory, and approved by the British Allergy Foundation, allergens stand no chance with Henry Allergy on-hand.

A Tool for Every Job

There are hotspots for allergens all around the home, including carpets, upholstery, mattresses and stairs, but Henry Allergy has a tool to reach them all.

Perfect for Carpets and Hard-floors

Henry Allergy has not 1, but 2 powerful floor tools for targeted cleaning whatever the floor. Includes high-performance Combi Floor Tool and specialist FreeFlo Tool.

Huge Capacity

Less emptying with a capacity up to x5 bigger than many bagless vacuums.

No Dust, No Mess, No Allergens

Henry HepaFlo bags with innovative self-seal tab lock dust in the bag, so unlike with many bagless vacuums, you can empty with no dust, no mess, and no allergens escaping.

Stores Neatly Away

On-board tool storage means tools are always to hand and neatly packed away.

Stop Allergens IN THEIR TRACKS

The average bed contains
10,000 dust mites and
2 million droppings

Stop Allergens in their Tracks

Sometimes, the **smallest things** can cause the **biggest problems**.

Up to **1 in 3** of us suffer from dust-related allergies, triggered by minuscule allergens, such as pollen, pet dander and dust mites, found hiding all around our homes.

Virtually undetectable, these unwelcome guests easily escape even the most powerful of household vacuums, triggering allergies.

Luckily, **Henry Allergy is here to help!**

Equipped with a HEPA filter, Henry Allergy is much more than any ordinary vacuum cleaner. Together with his TriTex filter and HepaFlo filter bags, he traps particles up to **800 times smaller** in width than a human hair.

Relief from **PET ALLERGIES**

Relief from Pet Allergies

Those of us that suffer from allergic asthma or hay fever are often susceptible to cat and dog allergies. Pet allergens are found in pet hair, pet dander and saliva that can become trapped in carpets and upholstery. Henry Allergy is scientifically proven to reduce pet-related allergens around the home.

Bigger Capacity HEPAFLO FILTRATION

HepaFlo Filtration

Tested in an independent laboratory, and approved by the British Allergy Foundation, allergens stand no chance with Henry Allergy on-hand.

With his HEPA filter, TriTex filter and high-efficiency HepaFlo filter bags, Henry Allergy's 3-stage filtration system stops allergens escaping.

A Tool For EVERY JOB

A Tool For Every Job

There are hotspots for allergens all around the home, including carpets, upholstery, mattresses and stairs, but Henry Allergy has a tool to reach them all.

His Crevice Tool is perfect for getting into all the nooks and crannies, including hard to reach areas under units and the sofa.

For delicate surfaces, like shelves, ornaments, picture frames, and intricate mouldings including door frames, his Soft Dusting Brush couldn't be better.

And when it comes to smaller areas, such as the stairs, sofa, and in the car, his Upholstery Tool is top-notch. Plus, remove the brush for optimum results when cleaning the mattress.

With all of these professional tools, not to mention Henry Allergy's 2 powerful floor tools, allergens have nowhere left to hide!

Brushes down
for hard-floors

Brushes up
for carpets

Specialist
Hard Floor Tool

Perfect for carpets and **HARD-FLOORS**

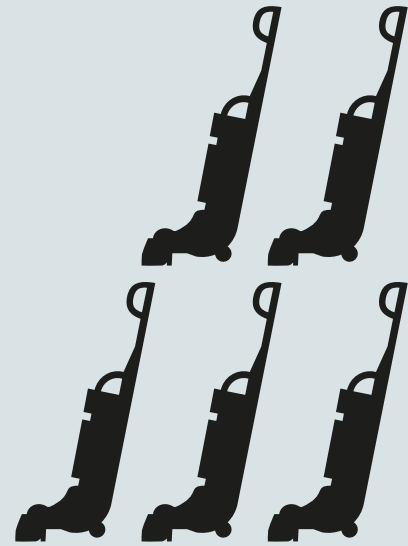

Perfect for Carpets and Hard-floors

Henry Allergy has not 1, but 2 powerful floor tools for **targeted cleaning whatever the floor.**

Easily switch between carpets and hard-floors with his high-performance Combi Floor Tool. Simply set brushes down for hard-floors and up for carpets, and you'll achieve powerful results on either floor.

For even better results on hard-floors, Henry Allergy is equipped with a specialist FreeFlo Tool, giving you **optimum pick-up, wherever you need it most.**

Up to
x5 BIGGER

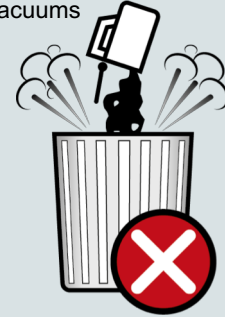

Huge Capacity

Less emptying with a capacity up to x5 bigger than many bagless vacuums. With his super long-reach, “trouble free” rewind 10 metre cable and huge 6 litre capacity, there’s even less stopping to empty and unplug, keeping you cleaning for longer.

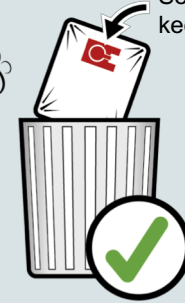

No Dust, No Mess, **NO ALLERGENS**

Bagless vacuums
have dust
clouds

Self-seal tab
keeps dust in

No Dust, No Mess, No Allergens

Henry HepaFlo Bags with innovative self-seal tab lock dust in the bag, so unlike with many bagless vacuums, you can empty with no dust, no mess, and no allergens escaping.
