

Commercial wet & dry vacuum cleaner - 55L container

The MAXXI II 55 offers a innovative dual filter system allowing the machine to be used for both wet and dry applications without the need to change filters. Thanks to MultiFit connection the MAXXI II tools are compatible with all ATTIX accessories.

The MAXXI II wet and dry vacuum cleaner presents a number of innovative design features making every day operation and maintenance easy, ergonomic and more productive. The MAXXI II 55 is equipped with a standalone trolley and is ideally suited for demanding jobs, especially in rough and wet environments such as building sites, light industry and for cleaning up after plumbers, electricians and other contractors.

The specially designed hinged motor head allows quick and easy filter inspection without lifting off the motor. Furthermore, the motor head allows the container to be emptied without moving any components, reducing the risk of damage or loss to critical parts. Pull the release catch at the bottom front of the container, lift the container and pour or use the convenient transparent drain hose. A fast, easy and efficient way to empty the container. When emptying the container it is advised to lift the container with one hand and hold the machine firmly with the other hand on the steel push handle.

Picture shown may not represent model quoted

- Dual filter system to handle both wet and dry applications without the need to change filters
- Easy emptying (with motor head fitted)
- Stainless steel tubes
- Intuitive single handed locking mechanism
- Wet mesh sack filter protecting the motor from foam ingress
- Flexible and handy mounting of tools and accessories
- Fixed steel push handle
- Tipping mechanism for easy emptying
- Transparent drain hose for indication of water level in the container
- The containers can be easily lifted off the trolley for cleaning or maintenance
